A LEAGUE OF PEACE

St. James' Gazette Proposes that England, America and Italy Join Hands.

Situation in Constantinople—Foreign Representatives Decline a Turkish Guard.

Sir Isaac Pitman Reported Dangerously Ill—The Advance on Dongola.

London, Sept. 16.—The St. James' Gazette this afternoon publishes a leading editorial headed: "New Triple Alliance." During the course of its remarks on the subject, the St. James' Gazette points out the menacing tone of the continental semi-official press on the subject of Turkey and says: "We are openly treated with a joint hostile horrid action if we interfere (in Turkey) against the will of the powers, but there is one combination which British statesmanship might effect. Two states which have little to gain from Russia could act with us and end the tension. The United States and Italy are both understood to be friendly to Russia, nevertheless neither is yet too deeply involved to be able to assume an independent attitude under British inspiration."

"Why should not England, the United States and Italy form a new triad? Alone of the nations of the earth the people of the United States can understand the impulse which would drive Englishmen to war in order to suppress tyranny or rescue the oppressed. Plenty Americans would regard with enthusiasm the spectacle of the United States and Stars and Stripes floating in the breeze, side by side, in the Bosphorus to back up a joint demand."

Continuing the St. James' Gazette points out that Italy is ready to join England in this matter if invited, and continues: "It might be expected that the Russian combination would go to pieces at the mere aspect of this genuine league of peace and the new triad might lead to a fresh grouping of the powers and the delivery of Europe from Turkish misrule."

The First, Second and Third brigades of cavalry and the camel corps have continued the advance on Dongola and are pushing on southward from Kedorina. The infantry, artillery, engineers and transport corps will soon move further southward as soon as the cavalry corps the other charred wreckage about 40 miles westward of Cape Flattery. As the lumber ship Nivech was deserted and fired in that locality some months ago, it might be a portion of that ship, but it is possible that another vessel has been burnt at sea. Capt. Davies did not sight any vessel in the vicinity of Cape Flattery, but is under the impression that he saw the now overdue Drumcliff while rounding the Horn's early business men. He sees a great change in the city since the time when the only business streets were Wharf and Government.

Early this morning the British bark Cathnesshire, Capt. Stett, arrived in the Royal Roads, 36 days from Acapulco. She is waiting orders.

The Topeka left Seattle for the north at noon to-day and will call at the outer wharf for passengers and mail tomorrow morning.

INNOCENT AMUSEMENT.
Fugitive Americans Arrange a Little Train Wreck as a Diversion.

Waco, Texas, Sept. 16.—The pre-arranged collision, which had been so extensively advertised, took place at Cross, Texas, 14 miles north of this place on the M. & T. R. R. There were six cars behind each engine and the wreck was complete. Nine of the spectators were badly injured by falling wreckage, two probably fatally. It is estimated 50,000 people witnessed the collision.

Rev. Rev. Bishop Perlin returned last evening from Winnipeg, where he attended the general synod of the Anglican church.

Harsh narrative remedies are fast giving way to the gentle action and mild effects of Carter's Little Liver Pills. If you try them they will certainly please you.

FROM THE CAPITAL

Li Hung Chang Expresses Thanks for Kind Treatment—Ministers to Visit B. C.

Canadians Warned Against Participating in Cuban Filibustering Expeditions.

The Globe on the Manitoba School Question—Hudson Bay Railway Project.

Ottawa, Sept. 16.—Sir Henri Joly de Lotbiniere received a telegram to-day from Li Hung Chang, thanking him and the Dominion authorities for their kindness to him in Canada.

Norman McLeod, secretary of the Vancouver Victoria & Eastern railway is here.

Hon. Mr. Davies has promised, if his departmental duties will permit, to visit British Columbia after the session. Hon. Messrs. Patterson and Turgeon may also go to the coast.

Sir Oliver Mowat has leased a residence here for two years from October 1st.

The Speaker has appointed a number of parliamentary agents, principally Ottawa barristers, to practice before parliamentary committees.

An extra of the Canada Gazette contains a proclamation warning Canadians against taking part in the fitting out of naval or military expeditions to Cuba. The proclamation states that representation has been made to the government that such an expedition is being organized in this country. It is said that parties in San Juan are implicated in it.

Barnett, the restaurateur of the House of Commons, has received official notification from the sergeant-at-arms that hereafter no more intoxicating liquor can be sold within the precincts of the house. The Senate discussed the question to-day and referred the matter to the restaurant committee.

In committee to-day the act to incorporate the Hudson Bay & Pacific railway came up. It was in charge of Mr. Oliver. He said he was not a promoter. Mr. Scott, barrister, of Ottawa, explained the project, which was to build a line to Port Churchill, the head waters of Lake Winnipeg, thence to Calgary, with a branch line to Edmonton and Lake Athabasca. What the company wanted was a charter. The promoters expected imperial aid, as the road would provide an alternative military route across the continent. Mr. Macdonnell opposed giving powers to a road to amalgamate with the C. P. R. Bonding privileges were reduced from \$25,000 to \$20,000 per mile and the bill passed committee.

Sarnia, Sept. 16.—Lord Aberdeen made an inspection of the tunnel yesterday, and the party had a sail up the river. His Excellency was entertained by the town, and at Watford he got a public reception and went to London to visit the fair, where they were entertained by the fair directors.

Toronto, Sept. 16.—Hon. Joseph Martin is still in the city. He does not expect to leave before Saturday, when he will go to Ottawa. A reporter to-day saw Mr. Martin in regard to the story telegraphed from Winnipeg, that he was here to float a Kootenay gold mine in Eastern Canada.

"I am interested in gold mining property," remarked Mr. Martin, "and I am here to look after that."

"There is another story that you are about to settle in Rossland."

"Not a word of truth in it," replied Mr. Martin. "I have no intention whatever of settling in Rossland."

The mining company in which Mr. Martin is interested is the San Francisco Gold Mining Company, who have a claim in Rossland district. The property is as yet undeveloped. Two gentlemen, Joseph Harris and Mr. Dines, have an interest in the property.

The Globe says Archbishop Langens is reported to have said on the subject of the "My attitude is the same as before my departure." Making all due allowances for his well-known belief of his church he ought surely to be able to distinguish between what he desires and what is possible; and the events of the past few months must have convinced any man who is not living in a world of dreams that legislation such as he supported is out of the question. Manitoba itself must be the judge of the wisdom of any settlement that may be proposed; and the strength of her position is such that she can afford to be not only just but generous. We regard her as out of the question; we hope now that the strain and irritation of that policy have been removed, to see the matter speedily and satisfactorily settled.

PERSONAL.

R. Morton, Coroner, is at the New England.

F. J. Sehl returned from Vancouver yesterday.

E. P. Dewey, San Francisco, is at the New England.

John Bayne came down from the interior last evening.

John Esterson was a passenger from Vancouver last evening.

W. R. and Mrs. Atkins, of Ashcroft, are guests at the Grand.

W. H. Balchbridge was a passenger this morning from the Mount.

Mrs. R. M. Black returned last evening from a visit to California.

J. B. Nelson, formerly editor of the Post-Intelligencer, is in the city.

F. M. James, Edmonton, and R. Cook, Vancouver, are at the Oriental.

Carl Huchman and Carl Huchman came over from the Grand this morning.

Leah-Ann, Dewdney and Mrs. Dewdney returned last evening from the mainland.

If the Law... Prohibited

the wasteful extravagance of money, we would have a monopoly of the dry goods trade.

The indications are that this Sept. will show more goods sold here than in any former September in the history of this store. Inconstant Activity, Working Goods, Prices hardly ever before equalled, and Generous Advertising have overcome the inertia and depression of the time and the season. You can make money on the offerings of today and every day this week.

TO ASSASSINATE QUEEN AND CZAR

Dastardly Scheme To End the Lives
of the Rulers of England
and Russia.

Very Little Doubt the Plot Were
Hatched in the United
States.

British Government Thoroughly In-
formed As To Movements
of Conspirators.

London, Sept. 14.—It is generally be-
lieved here that the police, by the ar-
rest of Edward Bell, at Glasgow, on
Saturday, J. Wallace and John E.
Kearney, at Rotterdam, and P. J. Tynan,
at Antwerp, have broken up a wide-spread
dynamite plot in the land.

At Rotterdam the police captured a number of infernal ma-
chines and correspondence which may
result in further arrests. Bell was ar-
rested at the Central police court and
remanded until Wednesday. He seemed
unconcerned. He was handcuffed
while in court and guarded by two po-
licemen.

Bell is about 28 years old, of medium
build, clean shaven and rather impec-
cable. He wore a soft hat and was other-
wise dressed as an American gentleman.
The people at the hotel where Bell had
stayed said he paid little attention to
his fellow guests. His peculiar manner
made an unfavorable impression. Bell
says he is not a British subject. His
papers and other belongings are in the
hands of the police, who it is said, have
been shadowing him for some time. The
police officials have been concerned some
time of the existence of a fresh dynamite
conspiracy. There is no reason to
doubt that the information in the pos-
session of the Scotland Yard authorities is
of the most serious character, al-
though it is difficult to obtain definite
facts.

Tynan seems to have had no idea that
he was shadowed by English detectives
from the moment he landed in Europe,
and feels his position keenly. He told
his captors he knew capital punishment
awaited him if he was handed over to
the representatives of the British gov-
ernment. During his continental tour
he passed himself off as a queen's mes-
senger or royal courier, and claimed that
the Bell travelling with him was his
secretary. Tynan asserted that they
were en route to Copenhagen with an
autograph letter from Queen Victoria.
During his stay at Boulogne-sur-Mer,
Tynan had plenty of money. His staple
business was champagne.

There is a strong suspicion that the
conspirators were planning the outbreak
to occur while the czar and empress vi-
sited the queen at Balmoral. It is said
that all the suspects were known to
have purchased materials for the man-
ufacture of bombs. Bell, as well as
Tynan, is alleged to have been dealing
heavily. He is reported to be most
nervous, and constantly calling for
whisky.

A dispatch to the Associated Press
from Antwerp states that two Irish
feonians, said to be naturalized Ameri-
can citizens, arrived here three weeks
ago, and rented a house in the suburb
of Bechem. English detectives watch-
ed them, their departure from the United
States having been known to the
English authorities. On Saturday the
house was surrounded by Belgian po-
lice, but the occupants had fled. A labo-
ratory, however, was discovered, fully
fitted with appliances and materials for
the manufacture of bombs and explo-
sives. The dispatch intimates that one
of these men had already saved a term
of imprisonment for complicity in dynamite
outrages.

The Scotland Yard authorities believe
the men referred to in the Antwerp dis-
patch are the two persons arrested at
Rotterdam. Incidentally, it is stated
that the men arrested at Rotterdam are
Kearney and Holmes, not Wallace.

A dispatch received by the Associated
Press from Brussels says that informa-
tion obtained there from reliable
sources indicates that the dynamiters
whose laboratory was discovered at
Antwerp were not feonians, but anar-
chists, whose aim was direct against
the czar. It is known that the police
at Antwerp were informed by the Scot-
land Yard authorities that a plot was in
preparation to assassinate the czar.
Many bombs, it appears, had already
been made. The police know that one
of the conspirators, who is believed to
have fled to Breslau, had several in-
fernal machines.

A dispatch from Rotterdam to the As-
sociated Press reports that the men ar-
rested there were in bed when the de-
tectives entered the room. Many in-
fernal machines were found in their
possession, together with a quantity of
correspondence in cipher, the key to
which has been discovered. The corre-
spondence is said to have contained
plans for dynamite outrages, including
an attempt on the life of Queen Vic-
toria.

The London Globe's address from Bou-
logne-sur-Mer says that Tynan's dis-
guise was almost complete. He had shaved
off his beard and had otherwise changed
his appearance. The Globe correspond-
ent adds:
"I knew him in Kingston in 1880, and
saw him in New York in 1883. He is
now about 28 years of age, and his man-
ner is horribly painted black. He is
attired in a light tuxedo suit, distinctly
Irish, and like all Irishmen of his kind,
it was his tendency to brag and con-
spire about which led to his arrest. It
was at first thought that Tynan was
connected with the gang of Paris anar-
chists who contemplated an unheard
while the czar is in Paris."

Bell had plenty of money in his
pockets when arrested, but no explo-
sives were found in his room. At his
hotel Bell described himself as an Ameri-
can tourist, and he looked the part to
perfection. The police of Glasgow re-
ceived a telegram from Scotland Yard
instructing them to follow Bell every-
where, and in consequence a close
watch was set over him. Four hours
later Bell received a telegram from
Tynan giving the latter's address and

the address of other men taken into
custody. When Bell was arrested he
asserted that he was an American tour-
ist. The papers found on Bell include
documents referring to the three other
men in the hands of the police.

Tynan, according to the Scotland Yard
men, has been at Boulogne-sur-Mer for
more than a week, and was almost con-
stantly drunk and boasting of the re-
venge he would wreak when his plans
were perfected. The Scotland Yard of-
ficial referred to was unable to say
whether the prisoners would be brought
to England, as the offense of purchasing
explosives was committed outside of the
British empire. One of the most noto-
rious feonian leaders, it is said, arrived
in Great Britain from the United States
some months ago, and the Globe at that
time published an article about his pre-
sence, pointing out that there was a re-
vival of feonianism in progress. As a
result of these disclosures, the Globe
claims, the feonian leader alluded to has
now returned to the United States.

Incidentally, it was the Globe which
first proclaimed the identity of the sec-
ond man arrested at Rotterdam as be-
ing John F. Kearney, of New York, who
is charged with being concerned in
blowing up the Glasgow gas works in
1882, a deed for which Terrence Mc-
Dermott and others now serving sen-
tence of imprisonment in Ireland.
Kearney went to New York, and it was
the recent action of the government in re-
leasing from Portland prison Dr. Thos.
Gallagher, Albert C. Whitehead, John
Daly and Thos. Devany. It was in-
tended to inaugurate a great demon-
stration in behalf of the prisoners and
agitation in the press, followed by a
face attack in the house of commons in
January. The disclosures in connection
with the arrests are considered unfavor-
able to the success of this plan. In an
interview the president of the Amnesty
Association said:

"The arrests are a matter of indiffer-
ence to us, except for their probable ef-
fect on the Irish movement. The fol-
lowers of Tynan are the feonians of Ire-
land, and this association will not raise
a penny for their defence. It cannot
compromise itself by any connection
with them."

The Dublin Independent this morn-
ing says: "The so-called plot is more
like a plea against Ireland. The re-
lease of some of the Irish political pri-
soners accused of dynamite offences had
no sooner called forth protests in Ire-
land than these sensational arrests in
connection with a new plot are an-
nounced. We emphatically protest
against the deliberate effort being made
to turn this plot against Ireland and
the unfortunate men in prison."

The Associated Press has received a
dispatch from Boulogne-sur-Mer, which
says that Tynan was taken before the
public prosecutor there this afternoon
and was interrogated as to his antec-
edents and as to the murder of Thomas
Henry Burke and Lord Frederick Cav-
endish in Phoenix Park, Dublin, in 1882.
Tynan in reply denied that he took any
actual part in the murders. Subsequent
to the examination, several Scotland
Yard men had an interview with the
public prosecutor, who signified to them
his approval of the active measures
taken by the English police to secure the
arrest of the conspirators. He also as-
sured them that the French authorities
would render them every assistance to
bring the culprits to justice. Tynan has
been allowed to see no one nor was he
allowed to consult or employ counsel to
assist at this examination.

The Scotland Yard authorities believe
the men referred to in the Antwerp dis-
patch are the two persons arrested at
Rotterdam. Incidentally, it is stated
that the men arrested at Rotterdam are
Kearney and Holmes, not Wallace.

A dispatch received by the Associated
Press from Brussels says that informa-
tion obtained there from reliable
sources indicates that the dynamiters
whose laboratory was discovered at
Antwerp were not feonians, but anar-
chists, whose aim was direct against
the czar. It is known that the police
at Antwerp were informed by the Scot-
land Yard authorities that a plot was in
preparation to assassinate the czar.
Many bombs, it appears, had already
been made. The police know that one
of the conspirators, who is believed to
have fled to Breslau, had several in-
fernal machines.

A dispatch from Rotterdam to the As-
sociated Press reports that the men ar-
rested there were in bed when the de-
tectives entered the room. Many in-
fernal machines were found in their
possession, together with a quantity of
correspondence in cipher, the key to
which has been discovered. The corre-
spondence is said to have contained
plans for dynamite outrages, including
an attempt on the life of Queen Vic-
toria.

The London Globe's address from Bou-
logne-sur-Mer says that Tynan's dis-
guise was almost complete. He had shaved
off his beard and had otherwise changed
his appearance. The Globe correspond-
ent adds:
"I knew him in Kingston in 1880, and
saw him in New York in 1883. He is
now about 28 years of age, and his man-
ner is horribly painted black. He is
attired in a light tuxedo suit, distinctly
Irish, and like all Irishmen of his kind,
it was his tendency to brag and con-
spire about which led to his arrest. It
was at first thought that Tynan was
connected with the gang of Paris anar-
chists who contemplated an unheard
while the czar is in Paris."

Bell had plenty of money in his
pockets when arrested, but no explo-
sives were found in his room. At his
hotel Bell described himself as an Ameri-
can tourist, and he looked the part to
perfection. The police of Glasgow re-
ceived a telegram from Scotland Yard
instructing them to follow Bell every-
where, and in consequence a close
watch was set over him. Four hours
later Bell received a telegram from
Tynan giving the latter's address and

London. Chief Inspector Melville will
also direct the search for the bombs, or
which the authorities allege that great
numbers were manufactured at Bera-
on, near Antwerp. None of these have
yet been discovered, however.

The precautions already taken to
guard the Czar on his forthcoming visit
to London are the same as those usually
made upon the visit of any foreign sov-
ereign to London. The Scotch police
have been reinforced by a squad of de-
tectives from Scotland Yard to aid in
the investigation going on in Glasgow
in connection with the arrest of Bell.
There is no stock taken in Scotland
Yard in the idea that Tynan meant to
blow up Marlborough House while the
Prince of Wales and the Czar were
within. It is reported that Tynan's
mother and four of her grand-
children left Kingston for Buenos
Ayres. Orders were given that Ed-
ward Bell should be continuously watch-
ed, as it is feared his hard drinking will
bring on an attack of delirium tremens.
As an untold prisoner having plenty of
money he is allowed to order everything
he desires but drinks.

The Irish leaders in London and Dub-
lin regard the arrests of the alleged dy-
namite plotters with consternation. A
project has been on foot ever since the
adjournment of parliament to obtain the
release of all the Irish political pri-
soners, which had been encouraged by the
recent action of the government in re-
leasing from Portland prison Dr. Thos.
Gallagher, Albert C. Whitehead, John
Daly and Thos. Devany. It was in-
tended to inaugurate a great demon-
stration in behalf of the prisoners and
agitation in the press, followed by a
face attack in the house of commons in
January. The disclosures in connection
with the arrests are considered unfavor-
able to the success of this plan. In an
interview the president of the Amnesty
Association said:

"The arrests are a matter of indiffer-
ence to us, except for their probable ef-
fect on the Irish movement. The fol-
lowers of Tynan are the feonians of Ire-
land, and this association will not raise
a penny for their defence. It cannot
compromise itself by any connection
with them."

The Dublin Independent this morn-
ing says: "The so-called plot is more
like a plea against Ireland. The re-
lease of some of the Irish political pri-
soners accused of dynamite offences had
no sooner called forth protests in Ire-
land than these sensational arrests in
connection with a new plot are an-
nounced. We emphatically protest
against the deliberate effort being made
to turn this plot against Ireland and
the unfortunate men in prison."

The Associated Press has received a
dispatch from Boulogne-sur-Mer, which
says that Tynan was taken before the
public prosecutor there this afternoon
and was interrogated as to his antec-
edents and as to the murder of Thomas
Henry Burke and Lord Frederick Cav-
endish in Phoenix Park, Dublin, in 1882.
Tynan in reply denied that he took any
actual part in the murders. Subsequent
to the examination, several Scotland
Yard men had an interview with the
public prosecutor, who signified to them
his approval of the active measures
taken by the English police to secure the
arrest of the conspirators. He also as-
sured them that the French authorities
would render them every assistance to
bring the culprits to justice. Tynan has
been allowed to see no one nor was he
allowed to consult or employ counsel to
assist at this examination.

Sour

Stomach, sometimes called waterbrash,
and burning pain, distress, nausea,
dyspepsia, are cured by Hood's Sarsa-
parilla. This it accomplishes because
of its wonderful power as a blood
purifier, Hood's Sarsaparilla gently
tonifies and strengthens the stomach
and digestive organs, invigorates the liver,
creates an appetite, gives refreshing
sleep, and raises the health tone. In
cases of dyspepsia and indigestion it
seems to have "a magic touch."

"For over 12 years I suffered from sour

Stomach

with severe pains across my shoulders,
and great distress. I had violent nausea
which would leave me very weak and
faint, difficult to get my breath. These
spells came oftener and more severe. I
did not receive any lasting benefit from
physicians, but found great happy effects
from a trial of Hood's Sarsaparilla, that I
took several bottles and mean to always
keep it in the house. I am now able to
do all my own work, which for six years
I have been unable to do. My husband
and son have also been greatly bene-
fited by Hood's Sarsaparilla—for pains in
the back, and after the grip. I gladly
recommend this grand blood medicine."

BUILT UP THE SYSTEM IN A WONDERFUL MANNER.

REV. JOHN W. BELL, B.D.
HAMILTON, ONT.

JAMES A. BELL, ESQ.
BEAVERTON, ONT.

James A. Bell, of Beaver-ton, Ont.,
brother of the Rev. John Wesley Bell,
B.D., prostrated by nervous headache
a victim of the trouble for several
years.
South American Nervine effected a
complete cure.
In their own particular field few men
are better known than the Rev. John
Wesley Bell, B.D., and his brother Mr.
James A. Bell. The former will be re-
cognized by his thousands of friends all
over the country as the popular and able
missionary superintendent of the Royal
Temple of Temperance. Among the
20,000 members of this order in Ontario
his counsel is sought on all sorts of oc-
casions. On the public platform he is one
of the strong men of the day, battling
against the evils of intemperance.
Equally well known is Mr. Bell to other
provinces of the Dominion, having been
for years a member of the Manitoba
Methodist Conference and part of this
time was stationed in Winnipeg. His
brother, Mr. James A. Bell, is a highly
respected resident of Beaver-ton, where
his influence, though perhaps more cir-
cumscribed than that of his eminent
brother, is none the less effective and
productive of good. Of recent years, how-
ever, the working ability of Mr. James
A. Bell has been sadly marred by severe
attacks of nervous headache, accom-
panied by indigestion. Who can do fit
work when this trouble takes hold of
them, and especially when it becomes
chronic, as was, seemingly, the case with
Mr. Bell? The trouble reached such a
point that last week he was completely
prostrated. In the midst of a great
recommended South American Nervine
Ready to try anything and everything,
though he thought he had covered the
list of proprietary medicines, he sent for
a bottle of this great discovery. A
second bottle of the medicine was taken
and the work was done. Employing his
own language: "Two bottles of South
American Nervine immediately relieved
my headaches and have built up my
system in a wonderful manner." Let us
not depreciate the good our energy and
social reformers are doing in the
world, but how limited they would be
for their work were it not for the fact
that South American Nervine brings to
them when physical ills overtake
them, and when the system, as a re-
sult of hard, earnest and continuous
work breaks down. Nervine treats the
system as the whole performer treats the
evil he is battling against. It strikes at
the root of the trouble. All dis-
ease comes from a derangement of the
nervous centers. This is a scientific fact.
Nervine at once acts on these nerv-
ous centers, gives to them health and vi-
vor, and then there comes a thorough
systemic change, the blood is purified,
and the system is able to do every
variety of work.

KILLING A SALMON STREAM.

A report from Alberni states that the salmon have reached the head of the canal in great numbers, and in their ineffectual attempts to surmount the dam at the paper mill are battering themselves to death in thousands. Some time ago a fishway was placed on this dam, but with the stupidity worthy of a government job, it was so constructed that at certain seasons no water passed through and consequently it was useless. A second ladder, upon an improved principle, was to have been placed there, but for some unknown reason it has not yet been put in position. Inspector McNab would be able, if disposed, to explain. The Soan's river, as a result of this impediment to the passage of salmon, has become denuded of fish, and Sprout and Centre lakes, formerly spawning grounds, are no longer frequented by this valuable habitat of every other British Columbia stream. The cost of a fishway or ladder is a mere bagatelle, and there is absolutely no reason for official neglect as in this case unless it be official incompetency or downright laziness.

HOW NOT TO DO IT.

City Engineer Wilnot proposes to extend the sewer now terminating near Mr. Pegher's property on St. Charles street, down that street to Foul Bay road and then to a ravine running through city property into Ross Bay on the east side of the cemetery. The sewer, as it now exists, is a nuisance in the most important residential section of the city, and its extension as above would remove that nuisance to a less populous locality and ultimately it would disappear altogether by the continuation of the sewer to the main sewer on Moss street. The sewer on Belcher and St. Charles streets (on the hill), although constructed with a view of forming a part of the city system, is not as yet connected therewith, the outlet at the present time being, as stated, on St. Charles street. The cost of the proposed extension is to be borne equally by the city, the provincial government (on account of Government House), and the property owners, each having agreed to contribute \$1000. The morning paper points out that "by taking the drain by Richardson street to Cook street, the council would have a proper sanitary drain," and in its innocent ignorance of the engineering difficulties expresses surprise that a thing so cheap had not been pointed out to the engineer and aldermen. There is no doubt if this route were practicable it would be the best one, but it is not practicable for the reason that sewage will not run up hill. The east end of Richardson street is lower than Cook street and as a falling grade is necessary the sewer would require to be built on trestles for fully half the distance. Furthermore, Richardson street is not extended to St. Charles street and these trestles would cross private property. It would be possible by tunnelling through the rock on Government House hill to connect with Cook street, but the cost would be enormous. Taking the sewage down St. Charles street to the sea may not be the best scheme devisable, but it is at least practical and economical, whereas the alternate route suggested by an unscientific critic is impossible, as the sewer would have to operate by a reversal of the laws of gravitation.

Mr. Sidney Low has given the opinion that "the people of Britain are in the full flood tide of protectionist reaction, and it is a tide which did not

begin to flow yesterday, and shows no signs of ebbing to-morrow." To him Bystander in the Toronto Weekly Sun, thus pays his respects: "No says Mr. Sidney Low, singing his song of triumph over 'The Decline of Cobdenism.' Just as he was writing, Canada, after eighteen years of bitter experience, was decaying against protection. New South Wales, after a brief relapse into protectionism, had reverted to free trade. The Americans are wedded, if any nation is, to protectionism, though it has been their economical and social bane, helped to sweep their marine from the seas, and filled their legislature with corruption. But the election of Cleveland was at all events a sign of ebbing; and certain it is that the McKinley tariff will never return." Mr. Sidney Low has been taking his turn to throw a handful of mud on the statue of Cobden. Cobden was mean, sordid and vile, because, instead of furnishing the nobility and gentry with sublime jingo sensations, he gave bread to a famishing people. "Poisonous" is the epithet bestowed by Mr. Sidney Low on a policy which in fifty years has trebled the wealth of Great Britain, and probably doubled the number of Englishmen living in plenty and comfort."

THEY SPEAK FROM IGNORANCE.

From the report of the discussion raised by Mr. Maxwell in the house of commons some judgment may be formed of the ignorance which prevails in the east in regard to the Chinese question. For the benefit of such well meaning but misinformed gentlemen as Mr. D. C. Fraser and Sir Henri Joly it seems necessary to quote Mr. Cleveland's famous aphorism: "It is a condition, not a theory, that confronts us." Mr. Fraser's fine theories and Sir Henri's chivalrous sentiments are admirable in their way; but they leave untouched the disastrous condition which unchecked Asiatic immigration imposes on this province. These charitable, philosophic and chivalrous gentlemen are simply not aware of the facts, else they would talk in a different strain. If the Pictou coal mine owners and other capitalists of Mr. Fraser's district were to import two or three thousand Chinese miners and coolies, to replace as many white men now employed, Mr. Fraser would have some realization of the evil which troubles British Columbia. If Mr. Fraser further knew that these miners and coolies were virtually in a state of slavery, imported under contract and owned, body and soul, by such organizations as the Six Companies, his Christian sentiments might be led to take alarm in a different direction. And if Sir Henri Joly were surrounded by similar conditions he might come to the conclusion that Canada owed something to herself and her civilization as well as to that smooth old Chinese diplomat who seems to have pulled the wool over his eyes. As a matter of fact these men know nothing of the true situation, and unfortunately they, and others like them, refuse to learn. Otherwise they would be grateful for Mr. Maxwell's efforts to enlighten them, taking account of neither time nor place. We fail to understand how any man who has concern for the welfare of Canada can look with complacency on the importation of Chinese slaves, whose work benefits only their owners and a few selfish capitalists.

The Rossland Miner offers the following contribution to the discussion on liability of shareholders in mining companies: "To set at rest any uneasiness which eastern people may feel on the subject the Miner will briefly reiterate the method of incorporating mining companies in Washington. A company is organized by acquiring the B mineral claim from C. Articles of incorporation and a temporary board of trustees are agreed on and these after filing their articles of incorporation and receiving their charter enter into an agreement with C for the purchase of the B mineral claim. C takes the entire capital stock of the company in fully paid and non-assessable shares in lieu of cash, and gives to the company a bill of sale to the B mineral claim. The stock held by C is all fully paid and non-assessable. He has taken it at par and he cannot be assessed for one cent on any or all the shares he owns. When he donates a portion of that stock to the treasury of the company, or sells it to anybody else at one cent, 10 cents or 50 cents a share it is still fully paid and non-assessable stock. Neither the company nor anybody else can levy an assessment of a single cent against a single share of this stock. If this were not so a number of Washington companies operating mines in this district would soon have got out of the troubles they got themselves into by exhausting their treasury stock. All they would have had to do was levy an assessment on their stockholders, but this of course they could not do." The Miner speaks with great confidence, but it really does not know what view the British Columbia court would take of the question. It is ad-

mitted that in the case of companies incorporated in the province there would be liability on the shares to their full face value. What then? Is there to be one law for foreign and another for domestic corporations doing business in the province, side by side?

There is nothing new in the information alleged to have been elicited by Col. Prior from Hon. Mr. Fisher in reference to the position of Dr. Duncan, acting superintendent of quarantine, to the effect that the Governor-General had signed the order-in-council appointing that temporary official permanently to the office. It will, however, be "news" if the government can do nothing to relieve the service of an official who has shown himself in another and similar capacity utterly unfit to discharge, without fear, favor or affection, the duties of such an important office.

"To My Life's End."

Old age brings on many aches and pains which must be looked after if health is to be maintained. This depends more than anything else on the kidneys. "I am 85 years old," writes A. Duffin, farmer, Aultsville, Ont., "and have had kidney trouble five years. My son advised Chase's Kidney-Liver Pills, and I obtained immediate relief. I shall use them to my life's end." You will find Chase's Pills equally effective for that lame back.

Communications.

THE CROFTER SCHEME.

To the Editor: I have read with interest the series of letters written on the "B. C. Fisheries and Colonization scheme" by Mr. Begg, in answer to my letter of inquiry. It seems to me the proposition as made by him is one of great importance to our province and from the evidently business like manner in which it is given, should be one to commend itself to the serious consideration of our government. There is no doubt whatever that a great development of the resources of the country would occur were a well organized series of settlements such as he proposes made along the seaboard of our island. The people whom he desires to introduce are as a class an industrious, frugal and law-abiding people. It may be true that they are poor, but what has that got to do with the question? The bulk of colonists coming to any country are poor, but do they on that account generally prove unsuitable? On the contrary they have so frequently shown traits of character for independence, industry and fearlessness of the hard and often difficult tasks falling to their lot in their new homes, that we often have had to stop and wonder at the remarkable work accomplished. Other governments have not been slow to recognize this and have largely assisted emigrants by giving assisted passages and sometimes grants of land.

Why our local government should have overlooked this scheme for so long seems to me a mystery. They give special facilities to the Swedish colony of Bella Cope. Why not undertake such a scheme as this. Mr. Begg deserves the hearty support of all in its efforts to further this undertaking; especially that of the government, as I understand it, the province will not be required to advance one dollar to the scheme. Moreover, as has been shown the imperial government are also alive to the necessities of the occasion and are willing to assist in a very liberal manner. Let our government, therefore, supplement this by such further liberal assistance as may be necessary. I am convinced there can be no better thing accomplished for the advantage of the province. I thank Mr. Begg for his ready response to my query, and express the hope that his efforts will meet with the success they deserve. I should have answered this before, but on account of absence from the city had not seen Mr. Begg's last letter on the subject till today.

INQUIRY.

Victoria, Sept. 16.

DROPPED DEAD!

Suddenly Stricken Down by Heart Disease.

"A sad and sudden death occurred to a well-known citizen on one of the leading streets this morning."

Nearly every large city paper contains daily some such heading. The number of deaths from heart failure is very large, but it is only when they occur in some public and sensational manner that general attention is drawn to them. Palpitation and fluttering of the heart are common complaints. With the heart itself there is nothing radically wrong, but the system is disorganized, the kidneys and liver are out of order, and the stomach is not in condition to do its work properly. Between them all, they throw too much responsibility on the heart, and the latter is unable to stand the strain.

A box of Dr. Chase's Kidney-Liver Pills may be had from any dealer or from the manufacturers, Edmondson, Bates & Co., Toronto. One pill a dose, one cent a dose.

Dr. Chase's Liniment and Turpentine for colds. Largest bottle on the market; only 25 cents.

A BY-LAW.

To Authorize the Sale of Lands Within the City of Victoria Upon Which Taxes Have Been Due and in Arrear for Two Years.

Whereas it is expedient that all lands or improvements or real property within the limits of the Corporation of the City of Victoria, upon which municipal taxes have been due and in arrear for two years, shall be sold, and the proceeds applied in the reduction of such taxes:

Be it therefore enacted by the Municipal Council of the Corporation of the City of Victoria as follows:

1. The Collector of the Municipal Council of the Corporation of the City of Victoria is hereby authorized and directed whenever taxes on any land or improvements or real property have been due for two years preceding the current year, to submit to the Mayor of the City of Victoria a list (in duplicate) of all the lands or improvements or real property liable under the provisions of this by-law, to be sold for taxes, with the amount of arrears against each lot set opposite to the same, and the Mayor shall authenticate each list by affixing thereto the seal of the Corporation and his signature, and one of such lists shall be deposited with the Clerk of the Corporation, and the other shall be returned to the Collector with a warrant therefor annexed, under the hand of the Mayor and the seal of the Corporation, commanding him to levy upon the land or improvements or real property for the arrears due thereon with his costs.

2. It shall not be the duty of the Collector to make inquiry before effecting a sale of lands or improvements or real property for taxes, to ascertain whether or not there is any distress upon the land, nor shall he be bound to inquire into or form any opinion of the value of the land or improvements or real property.

3. The Collector shall prepare a copy of the list of lands or improvements or real property to be sold, and shall include therein, in a separate column, a statement of the proportion of costs chargeable on each lot for advertising and for the commissions authorized by this by-law to be paid to him, and shall cause a copy of such list to be printed for a period of one month preceding the date of each intended sale in some newspaper published in the City of Victoria.

4. The advertisement shall contain a notification that unless the arrears and costs are sooner paid he will proceed to sell the lands or improvements or real property for the taxes, on a day, a time, and at a place named in the advertisement.

5. The Collector shall, at least two months before the time of sale, also deliver to or deposit in the postoffice to the address of the owner of such property which is to be sold for taxes as aforesaid, or to the agent of such owner, a notice in writing of the amount of taxes due, and that the property is to be sold for arrears so due, and in case the address of the owner or agent is unknown, a notice to the same effect shall be posted upon the land intended to be sold, and also, at least two months before the time of sale, post a notice similar to the above advertisement in some convenient and public place, that is to say, at the Council Chambers, Victoria, and in the Post Office Building, Victoria.

6. The day of sale shall be the thirty-third day after the first publication in a newspaper of such list, exclusive of the day of such publication, except in case the said thirty-third day shall fall on a Sunday or holiday, in which case such sale shall take place on the following day at the Council Chambers, in the City of Victoria, and shall begin at twelve o'clock noon.

7. If at any time appointed for the sale of the lands or improvements or real property no bidders appear, the Collector may adjourn the sale from time to time.

8. If the taxes have not been previously collected, or if no one appears to pay the same at the time and place appointed for the sale, the Collector shall sell at public auction so much of the land or improvements or real property as may be sufficient to discharge the taxes and all lawful charges incurred in and about the sale and the collection of the taxes, selling in preference such part as he may consider best for the owner to sell first, and in offering such lands or improvements or real property for sale it shall not be necessary to describe particularly the portion of the lot or section which shall be sold, but it will be sufficient to say that he will sell so much of the lot or section as shall be necessary to secure the payment of the taxes due, and the amount of taxes stated in the advertisement shall in all cases be prima facie evidence of the correct amount due.

9. If the Collector fails at such sale to sell such land or improvements or real property for the full amount of arrears of the taxes due, he shall at each sale adjourn the same until a day he publicly names not later than three months thereafter, of which adjournment he shall give notice by advertisement in the newspaper, in which the original notice was advertised, and on such day he shall sell such lands or improvements or real property for any sum he can realize. Provided that the amount of the arrears of taxes due shall be the amount of arrears of taxes due to do, to purchase such lot or section in the name of and on behalf of the said Corporation.

10. If the purchaser of any property or parcel of land fails immediately to pay the Collector the amount of the purchase money, the Collector shall forthwith again put up the property for sale.

11. Immediately after every sale the Collector shall return a list of the arrears satisfied by such sale to the Clerk of the Corporation, and shall at the same time pay in the proceeds to the Treasurer of the said Corporation.

12. The Collector shall be entitled to five per cent commission upon the sums collected by him as aforesaid.

13. This by-law may be cited for all purposes as "The Victoria Real Property Tax Sale By-law, 1896."

Passed the Municipal Council the 26th day of June, A.D. 1896.

Recommended, adopted, and finally passed the Council this 26th day of July, A.D. 1896.

New Westminster, which is to be played
at the Colindale grounds on Satur-
day the 19th inst. instead of the
20th as previously announced.

The annual meeting of the Y. M. C.
A. will be held this evening at 8 o'clock.
Reports will be submitted by the various
committees and the new board of direc-
tors will be elected. The following
ladies and gentlemen will contribute to
a musical programme: Misses Clarke,
Laney, and Baker, and Messrs. Watson,
Brownlee and Barker. The ladies will
also serve coffee and cake. It is hoped
that the members and friends will turn
out in full force.

Mr. Allan Cameron, formerly agent
of the C. P. R. in this city, and latterly
holding a similar position in Portland,
has been appointed district freight agent
for the company, vice Wm. Brown, de-
ceased. The appointment is a very
popular one, the new district agent
standing very high in the estimation of
the business men in the Northwest,
with whom he is well acquainted. Mr.
Cameron came over from Vancouver
last evening, paying his first visit to
Victoria since his promotion.

The members of the British Colum-
bia Natural History Society will be in-
terested to learn that the rare fish which
was presented to the society in July,
1896, was killed by Mr. Christopher
Nordstrom, one of the Norwegian set-
tlers, near the narrows of Quinsno. He,
along with two other settlers of the
Norwegian colony, were in the boat
fishing when Mr. Nordstrom observed
the odd-looking fish, about four feet in
length, approaching the shore, in about
four feet of water. It seemed to be
in pursuit of something and got its head
near a crumple of a rock, when Mr.
Nordstrom, using the butt end of his
oar, struck it near the gills, disabled and
captured it. The captor having no other
way of preserving the strange creature,
put it in salt and forwarded it to the
Natural History Society by Capt. Fox
on his next trip to Victoria. Mr. Ben-
jamin, his recent visit to Coal Harbor,
met Mr. Nordstrom, and was informed
by him of the facts, which sets at rest
the supposition that the fish was found
after it had been cast ashore by the
waters. Mr. Nordstrom has since
received a jar of preserving liquid from
the society, that he may be prepared to
take proper care of any rare specimens
which may be found on that part of the
Pacific Coast.

The first meeting of the committee
of the council appointed to hold an
investigation into the North Ward school
defects, was held last evening. The
committee consists of Ald. Marchant
(chairman), Macmillan and Williams.
The proceedings were simply routine,
the chairman reading the resolution of the
council authorizing the investigation,
and Secretary Williams, of the board of
school trustees, all the minutes of the
board in which reference was made to
the school building. Mr. C. J. Soule
identified the plans, specifications and
contracts and the meeting adjourned un-
til two o'clock on Saturday. Among
those present at the meeting were:
Mayor Beatty, School Trustees Hay-
ward, Belyea, Yates and McKicking; W.
J. Smith, of Elford & Smith, the con-
tractors who erected the building; Mr.
C. J. Soule, the architect, and Mr. R. S.
Dyer, who was his partner at the time
C. Dubois Mason, the city solicitor, who
acts as legal adviser to the committee;
W. Ridgway Wilson, the architect un-

der whose supervision the repairs to the
building are being done; James Gray,
who was clerk of the works for the
school trustees during the erection of
the building; B. Williams, secretary of
the school board; W. W. Northcott,
city building inspector; and Thomas Bry-
don, the foreman during the repairs.

The Sons of Erin will hold their first
meeting of the season this evening.

A large number of marines who are
to join the Pacific fleet reached Whar-
fage last evening.

The "Lancet" says: Kopsi Cheer is
non-intoxicating, possesses distinct ton-
ic and stimulating properties.

Donations to the Refuge Home are
gratefully acknowledged from Mrs. Har-
vey, Miss Aubyn, Mrs. Spencer, Mrs. H.
Kobt, A. Friend.

Dr. Hathaway will give an illustrat-
ed lecture at the Centennial Methodist
church this evening, his subject being
"P. aggressive New Zealand."

Admiral Palliser has given instruc-
tions to Messrs. Davie, Pooley & Lux-
ton to prosecute the schooner Viva for
contravention of the Behring Sea act.

Two drunks were in the police court
this morning, one an Indian, was fined
\$5 and costs, the other a white man,
first offence, convicted and discharged.

The steamer City of Puebla which
sailed from San Francisco this morning,
has the following cabin passengers for
Victoria: Miss J. O'Brien, P. Ham-
ilton and wife, Helen Hamilton, J. W.
Laird, A. Fraser, E. Millette.

Several samples of ore from the Gold
Ridge Gold Mining Company's mine, near
Nelson, have been presented to the Board
of Trade. The ore averages \$100.25 to the
ton in gold. In several of the pieces
gold can be seen with the naked eye.

The funeral of the late Richard
Graham took place yesterday afternoon,
the services at St. Paul's church, Es-
quimaux, being conducted by Rev. C. En-
quist. The pallbearers were Messrs.
W. R. Smith, D. Phillips, A. C. Muir,
E. H. Power, J. J. Bentley and G.
Hickey.

Robert MacLure, of North Saanich, was
fined \$10 and \$7 costs in the Provincial
court this morning for failing a deer,
contrary to the provisions of the game act.
The magistrate promised to deal severely
with anyone found guilty of an infraction
of the act, as he understood that pheasants
and other game were being shot out of
season.

It is understood that the secretary of
the Municipal Reform Association has in-
formed the council that as soon as the
information obtained by the Dominion gov-
ernment to prevent the completion of the
Point Ellice bridge has been dismissed
there will be no trouble in having the
Reform Association's injunction suit dis-
missed.

Ald. Macmillan has been notified by
Mr. A. L. Belyea that an action for libel
will be taken against him at the instance
of E. A. Wilmut, city engineer. The
letters in which the alleged libel ap-
peared were published in recent num-
bers of the Times and Province and had
reference to the recent bridge disaster
and the responsibility of the council
thereof.

Victoria Hive, Ladies of the Mace-
bees, assisted by Victoria knights of the
same order, will give an entertainment
in the A.O.U.W. Hall to-night, which
will consist of a representation of the
"New Woman," together with a good
literary programme. A short address on
the objects and aims of the order will
be given by state commander, J. A.
Orward, of Tacoma. All friends of
fraternity and benevolent orders are cor-
dially invited to attend.

Last evening the local preachers of
this city held their ordinary monthly
meeting at the residence of Dr. E. A.
Hall, corner of Cadboro Bay Road and
Fernwood Road, when a paper on the
use and abuse of the prayer meeting was
prepared and read by A. Malpas,
after which a very animated and edify-
ing discussion took place, in the
following members took part: Revs. C.
Tarrant and J. P. Hicks, and Messrs.
Morris, Lee, Noble, Adams, Sherer and
Dr. E. Hall. At the termination the
members were refreshed by refresh-
ments kindly provided by Dr. Hall.

To-morrow promises to be a busy
day in the police court. Magistrate
Macrae will give his decision in the
Palace and Chinese schools, liquor cases.
The point on which the case hinges is
whether the drinks supplied were in-
toxicating. The police are positive that
they were, although they did not
taste or smell them. The defense hold
that the prosecution must prove that
the drinks were intoxicating, but the
magistrate was of the opinion when the
cases were before him that the defense
must prove that it was not intoxicating
liquor that was supplied. Another sum-
mons for a similar charge has been is-
sued, also returnable to-morrow. The
defendant in this case is M. McCabe of
the Wilson hotel.

The attraction with which Manager
Jamieson opens the theatrical season on
Friday evening, will be "The Gay Paris-
ians," the comedy which has been the
laughing success of New York, Boston
and Chicago. Manager Charles Froh-
man sends the same company which at-
tracted so much attention for its excel-
lence during a run of 200 nights at
Hoyt's theatre, New York, and in Bos-
ton and Chicago. The play is an ad-
aptation from the French of a farce
which is now in its second season in
Paris, under the title of "L'Hotel du
Libre Echange." Literally translated
this means the hotel where everything
goes, but in the American form, the
comedy is by no means so broad as this
term would indicate. The American
version is now running in London,
England, under the title of "A Night
Out."

Women with pale, colorless faces, who
feel weak and discouraged, will receive
both mental and bodily vigor by using Car-
ter's Iron Pills, which are made for the
blood, nerves and complexion.

Art squares in all sizes at Weller
Bros. These goods give an increasing
satisfaction and we recommend them,
as pretty, inexpensive and durable car-
pets. We know that is just what you
want.

Short lengths of hemp carpet mat-
ting etc., at Weller Bros. We want
to clear these remnants.

SKENE LOWE.

LI'S PARTING SHOT

The Famous Viceroy Quizzes Chief
Justice Before Leaving for
the Orient.

He Gives an Audience to Several
Victorians and Receives
Chinese Deputations.

Every available inch of space on the
new outer wharf was peopled when the
Royal mail steamer Empress of China
steamed alongside at 5 o'clock last even-
ing. There were many white people
there, but Chinese were in the decided
majority.

The whole lot of Chinatown
seemed to have turned out to have a
peep at the greatest Chinaman of the
age. They came in all sorts of vehicles,
even the ordinary Chinese vegetable
wagons were there with loads of gaily
dressed Orientals. The great Li was
considerate enough to stand at the rail-
ing of the steamer as she approached
the wharf, so that all might look at him.
He appeared to take great interest in
the crowd and occasionally spoke to one
of his suite. The Empress was gaily
dressed with flags from mast to mast,
and at the mizen top floated the drag-
on.

As soon as the gang plank was pushed
ashore, a Times representative went
aboard and secured a few minutes con-
versation with His Excellency. The re-
presentative had little to do but answer
Li's questions.

"Did you board the steamer here?"

"Victoria is the capital of the province,"

and answered in quick succession.
Then with a peculiarly fascinating smile
playing on his features, he said: "I was
under the impression that when I left
Vancouver I would not have the pleasure
of again meeting a representative of
the press on this side of the Pacific.
I do not know what I can say to you in
the few minutes at my disposal. I
would deem it a favor if you would say
for me that I am delighted with my
quarters on board this beautiful ship. I
feel in excellent health and believe that
I will be greatly benefited by the trip
across the ocean."

Before these words were converted
into English by the interpreter at his
side, Lee Mong Kow, the local Chinese
interpreter, who acted as master of
ceremonies, ushered in a deputation
from the Chinese Board of Trade.
Each knelt before His Excellency and
afterwards presented him with an illu-
minated address. Li replied in Chi-
nese. The Chinese knelt before him
again and dispersed.

Li Hung Chang intimated that he
wished to go inside, but Mong Kow an-
nounced "The Chief Justice of the Pro-
vince." Li, however, went inside, and
Hon. Mr. Davie followed under the
guidance of Mong Kow. Crowds of in-
terested spectators followed into the sal-
oon of the ship and they had the pleasure
of hearing Chief Justice Davie an-
swer questions for about ten minutes.
It brought them back to the days when
Attorney-General used to unmercifully
quiz some unfortunate witness, but the
tables were turned and he was now un-
der the necessity of answering some
very personal questions.

Li's own famous question, "How old
are you?" was the first; then came "You
are a lawyer? You must have studied
a great deal of law? Are you from Lon-
don? Who is the gentleman with you?"
(Hon. G. B. Martin accompanied the
Chief Justice.) Have you much to do?
You have a supreme court here? How
many judges of the supreme court? Do
you always hold courts in Victoria? Do
you hold court every day? Are all
cases tried by jury? How many in a
jury?"

Then came the only portion of the
interview that could be punctuated
without an interjection point. Li's
features assumed an eloquently pleading
expression. He put outwards and up-
wards his long right arm, until the
slender tapering fingers hung above the
head of the Chief Justice and said: "I
know very well that you are just, be-
cause I know that all English justices
are just. There are many of my
countrymen in your country
who are yet unprotected by a Chi-
nese consul. If any of them should come
before you I am sure they will receive
justice."

The Chief Justice replied that all peo-
ple were equal in the courts of law and
that Li's countrymen would receive the
same justice as others.

"I know it," said Li. "My countrymen
have told me they are very well treated
here. I thank you for this kind talk,
and regret that I have not the time at
present to visit your city."

The interview was at an end.
Rev. A. B. Winchester then presented
an address from the Christian Church-
men of the city of Victoria, also a copy
of the Bible translated into Chinese.
These were acknowledged by His Excel-
lency in a few words.

Several Victoria ladies and gentlemen
were then presented to the viceroy, and
he retired to his room. He afterwards
came out to shake hands with Premier
and Mrs. Turner. He also received a
beautiful bouquet from Mrs. Turner with
a few graceful words.

As the steamer was about to depart
the band played "He's a jolly good fel-
low," and the Chinese orchestra played
what one of the musicians said was the
"Li Hung Chang March."

Amid the deafening sound of fire-
crackers and rockets the Empress grace-
fully sailed from the wharf and Li
Hung Chang's brief visit to Victoria
came to an end.

Lee Mong Kow while in Vancouver
had a long conversation with Li Hung
Chang, furnishing him with copies of
the Board of Trade reports and other
statistical information. During the in-
terview Li urged Mong Kow to tell the
Chinese population in this province to
observe the law and give up their evil
customs. He presented Lee Mong Kow
with a watch, a pair of glasses, a box
of pens and a silver medal. He

also gave Mong Kow a photograph of
himself of which the latter will
have copies made, and these, with print-
ed copies of his parting instructions to
his countrymen will be sent to the dif-
ferent Chinese societies in the province.

Bishop Perrin, who has just returned
from the Anglican church synod at Wip-
pica, came over from Vancouver on the
Empress. During the journey he had a
lengthy interview with Li Hung Chang.
The viceroy questioned him about mis-
sionary work in China, and urged that
only men learned in the work be sent
there. Li also spoke about the late
General Gordon.

The following is a complete list of
the Empress' passengers: Viceroy Li
Hung Chang, Lord Li, Lieut. A. Brigan-
ce, Mr. Kipuchi, Mr. Gato, Yuh Sir
Mek, Lien Fung, Lo Yang Loh, Li Ching
Son, Rev. W. P. Turner and wife, H.
Gribble, Mr. Gerlinger, J. Staffell, Ran-
some, Baron Oberkampff, Milla, Ober-
kampff and maid, Mrs. Harris, Miss
Wells, Miss Harris, Miss May Foster,
Miss M. A. Pyke, Miss D. Robb, Rev.
J. Hofer, J. Flood, H. McColl, Miss J.
Fullerton, Mrs. A. H. Rennie, Miss
Gordon, R. R. and Mrs. Simpson, F.
S. A. Brown, H. Naville, H. Bell, Mrs.
Skottton, Mrs. Pearson and child, Mr.
and Mrs. Layton, two children, and
nurse, Lt. Col. and Mrs. Fithell, Miss
Hartwell, Miss Whong, Mr. and Mrs.
Dunsmuir, Mrs. G. Hartwell and two
children, Miss Trumble, Miss Gilman,
Miss Calhoun, Rev. J. A. Otte, Rev.
H. E. Studley, Miss Gaynor, Mr. Nimer,
Mr. Okochi, Mrs. J. A. Otte and three
children, Dr. and Mrs. Fest, Harry Mc-
bath, Mrs. Cushing and two children,
Miss Rodman, Miss Allen, Mr. Potter,
Rev. L. H. Root, Mr. Hering, F. A.
Bell, R. and Mrs. Shappard, Lich Pang
Ho, Hwang Kai Wei, H. Brown, Lin
Y. You, Dr. Irwin, Mr. and Mrs. Burke
and three children, Miss Allan, and Mr.
Poot.

Among those who were honored by an
interview with His Excellency, Li Hung
Chang, was Mr. C. F. Moore, of this City.
His Excellency seemed greatly surprised
to see one of the old passengers of Gar-
don's Ever Victorious Army—an army
which assisted so materially in quelling
the Taping rebellion. What added bright-
ness to his speaking eye was the pleasure
he seemed to derive in hearing the north-
ern tongue spoken direct to him by Mr.
Moore.

Sure to Win.

The people recognize and appreciate
real merit. That is why Hood's Sarsa-
parilla has the largest sales in the world.
Merit in medicine means the power to
cure. Hood's Sarsaparilla cures—absolu-
tely, permanently cures. It is the
One True Blood Purifier. Its superior
merit is an established fact, and merit
wins.

HOOD'S PILLS are easy to take,
easy to operate. Cure indigestion, head-
ache.

In a recent letter to the man-
ufacturers Mr. W. F. Benjamin, editor
of the Spectator, Rushford, N. Y., says:
"It may be a pleasure to you to know
the high esteem in which Chamberlain's
medicines are held by the people of
your own state, where they must be
best known. An aunt of mine, who re-
sides at Dexter, Iowa, was about to
visit me a few years since, and before
leaving home wrote me, asking if they
were sold here, stating that if they
were not she would bring a quantity
with her, as she did not like to be with-
out them." The medicines referred to
are Chamberlain's Cough Remedy, fam-
ous for its cures of cold and croup;
Chamberlain's Pain Balm for rheuma-
tism, lame back, pains in the side and
chest, and Chamberlain's Colic, Cholera
and Diarrhoea Remedy for bowel com-
plaints. These medicines have been in
constant use in Iowa for almost a quar-
ter of a century. The people have
learned that they are articles of great
worth and merit, and unequalled by any
other. They are for sale here by all
druggists, Langley & Henderson Bros.,
wholesale agents, Victoria and Vancou-
ver.

CIVILIZING THE BLACKFEET.

On the Reservation Where Great Chief Crowfoot Sleeps.

It will be remembered that, a little over a year ago, a report was given credence that the Blackfoot on the reservation near Glacier, N. W. T., had gone on the warpath and had made up their minds to make short work of all the whites within their reach. The story was absolutely without any foundation, beyond the fact that a missionary who had incurred the wrath of a brave, had to flee to the adjoining Blood reservation to escape being shot, and had to refrain from returning for fear of being killed by the latter tribe. There was no further trouble, for the missionaries inclined Indian was disarmed without trouble by one of the interpreters who had gone in pursuit of him as he followed the trail of his intended victim.

There occurred, however, on the same reserve, the unfortunate shooting of Skynner, the distributor of rations, who was so lacking in good judgment and tact as to mortally offend one of the Indians who was said to be not altogether right in his head, and who killed Skynner in cold blood, afterwards killing the penalty of his life by being shot by one of the squad of Mounted Police sent from Glacier to capture him. The murder had taken "sanctuary" at Chief Crowfoot's grave, which is situated on a commanding bluff, which rises abruptly from the plain, and forms an ideal natural fortress. There he "stood off" the police for quite a while, but, as has been stated, he was finally sighted and shot.

The Blackfeet have always had the reputation of being—with the possible exception of the Sioux—the most warlike of the prairie Indians, and even to-day, when civilization has made remarkable progress among them, owing to the paternal treatment which they have received at the hands of successive Canadian governments, they are what the Scotch call "little cattle to shoe." It requires great tact and intimate knowledge of their nature and disposition to manage them without serious friction. It is a fact, which reflects very great credit on the present agent, that he has, for so many years, managed to keep them quiet on the reserve, and, in addition, induced them to make, for a race so partial to the warpath, and so contemptuous to the paths of peace, such notable advances in the arts and industries of the white man's civilization. The two unfortunate episodes, above referred to, have been the only occurrences that have marred the harmony and contentment in which the tribe has lived during Mr. Begg's tenure of the agency, and they were caused by the unfortunate lack of good judgment and tact on the part of the men who suffered in consequence.

Not long ago the writer spent some weeks on the reservation, and had an opportunity of seeing and judging for himself of the results of the wise management of this warlike band of Indians. He found the men an exceptionally fine race physically, and possessed of all the agility and strength which many of us have, only exist as attributes of the red man in the pages of Cooper. Each brave moved with the dignity and ease of a king, and one could easily see that anything in the nature of a slight or an insult would readily rouse warlike impulses. "The slanting devil" within them. Yet they all moved from end to end, their venerable chief, and once the very best of the brave, down to the youngest of those who had not yet qualified as warriors by passing the ordeal of the sun dance, the greatest respect for the law as represented by the agent; and the quiet and firm kindness with which they were invariably treated; and the even-handed justice which they knew would always be rendered in cases of dispute between individuals of the tribe have commended to their minds by their impartiality and absolute fairness. A better object lesson of the difference between the Canadian method of treating the Indians and that adopted by the United States government could hardly be conceived.

A letter recently received by the writer, from a gentleman who had spent some days on the reserve, less than a month ago, throws a strong light on the progress that has been made in civilizing these once terrible Blackfeet, even since the days when Crowfoot, their greatest chief, kept them without difficulty from going on the warpath in aid of his and his halfbreeds. The letter says in part:

"The Blackfeet are making wonderful advances in the ways of civilization, and it seems to me next thing to an impossibility that they will ever again, as a tribe, go on the warpath. They find the arts of peace pay better, and it is no exaggeration to say that, to-day, the Indian who, like the patriarchs of old, is possessed of flocks and herds—is a better man than the bravest warrior of the tribe. The day when scalps, hung to dry on the ridgepole of the wigwam, gained glory and status for their possessor, is gone. The day, even when the wealth of the Blackfoot was counted by ponies, is past. Now he goes in, much more wisely, for the raising of beef on the hoof, for which he can always command a ready market from the government, and enjoy the satisfaction of eating his ration thereof afterwards. One Indian, to whom I was introduced, and to whom I was well-bred and commodious house I sat down to a well-cooked and well-served meal, has a herd of 40 head, some of which were being fattened for the government shambles, while the others were kept for breeding. There were many other Indians who had some what smaller herds in the same condition, and all of them seemed prosperous and contented.

"The greatest work the Blackfeet have undertaken and brought to a successful termination is undoubtedly their irrigation ditch, dug entirely by themselves and seven miles in length. It brings water from the Bow river to irrigate about 3000 acres of bottom land. This land is now being fenced in, in one block, and is nominally the property of Old Sun, the chief. That is to say, he is owner of it, but it is divided up into small fields, which are held by Indians of lesser degree, under the chief. The centre of the block is reserved for great value to the Indians for feeding their stock through the long winter. Under irrigation they will undoubtedly be able to raise not only enough for their own use, but a large quantity for sale.

"It may be mentioned that there is a coal mine on the reserve, owned and worked entirely by the Indians, and is proving a source of very considerable profit to them, as the coal is of good quality and is mined by them as skillfully as if they were 'bottles' imported from Wales or Newcastle-on-Tyne. "As an illustration of the fact that their devotion to agriculture is more than skin-deep, I may mention that many of them are buying mowers with their own money, and running them intelligently and successfully. "There is excellent work being done by the missionaries on the reservation, especially in the way of educating the children, but their efforts are somewhat handicapped by the rooted objection which the Blackfoot tribe seems, universally, to entertain to having his youngsters know more than he does. "It seemed to me a great pity that the teaching of French should be carried on in this tribe. It appears a waste of government and other money, and a needless perpetration of a cleavage from which not only the tribe of the Blackfoot but the people of Canada as a whole, would be much better to be free."

ROSSLAND.

There is no doubt that Messrs. North and Goven came over from London expecting to take the War Eagle mine. They had organized a company in London with a capital stock of \$550,000 and registered it as the Rossland-War Eagle Gold Mining Company at an expense of \$4,000 on the 10th of August. It is hardly probable that they would go to this expense unless they meant business. Mr. North, who by the way, is not related to the late Col. North, of nitrate fame, is a mining promoter of established standing, and a very strong financial backing. Mr. Goven is also a man of large means. Just before going to press we received a dispatch from Spokane, saying the sale had not been closed.

The Evening Star now has 100 tons of ore on the dump and will begin to ship immediately. A new ledge was found on the west side of the Evening Star ground last Monday. Owing to its position it is believed to be the Colona ledge whose course has always been known to be towards the Evening Star. The ledge is 20 feet wide in places and says from the surface show as much as \$4 in gold.

J. A. Currie, owner of the Mustang mineral claim, arrived in town on Monday. On Wednesday J. A. Kirk surveyed the claim for him. Mr. Kirk was the engineer employed by the Green Crown company to survey practically the same ground for it. The survey of the claim leaves the Green Crown just 4.5 acres. It is a triangular piece of land with a base line 300 feet long and measuring 610 feet to its apex.

The Cambridge continues to improve. H. S. Wallace went down to the mine on Thursday and took a sample of about 100 lbs. of the ore in the bottom of the shaft. It went \$38 in gold, and although not assayed for copper, would undoubtedly run at least 3 per cent. in that metal.

Our London correspondent tells us of his effort to find something about the War Eagle Company registered there with a capital of £2000. He could not learn anything about it, but we have heard all about it in Rossland. It seems that some people in London knew of the plans of the syndicate which held the option on the War Eagle and with a view to making a little money out of them they registered a company in the name which it was understood they would use. They made nothing by the move, however, as the big company just called its name to the Rossland-War Eagle and ignored the prior concern altogether. They are out the registration fees and have hurt nobody.

The foreman of the Ivanhoe, on Little Sheep Creek, has reported that he cut the ledge in the tunnel and had gone into it six feet without finding the hanging wall. He found two feet of quartz next to the foot wall and then four feet of gangue heavily mineralized. He expects to find solid ore in the hanging wall. The quartz carries some gold, very good assays having been had from it on the surface.

From Joe Young we learn that the Elise is to be incorporated for \$1,000,000. Mr. Young owns one half of the property, the other half being held by a Seattle syndicate represented by Dr. E. C. Kilburne. The Seattle people paid \$50,000 for their half of the claim. It is only located on the 30th of last June. Work was begun on it August 1 and the sale above referred to was made on the 27th. Mr. Young has been operating in Kootenay for several years past and it looks as though he had found the long sought for bonanza at last.

The Commander ship is now down 130 feet and is in a fine grade of copper ore. A body of calc spar was encountered a few days ago which filled the entire bottom of the shaft, but this has disappeared and the ore has come in again.

The new building to enclose the machinery plant of the Nickel Plate is approaching completion and presents a very neat appearance. Some very pretty ore is now being taken from the Nickel Plate. A shipment made recently yielded 100 lbs. of gold.

property was taken on the report of W. J. Waterhouse, M. E. Sir Charles Ross, Bart., left for England Wednesday, going by way of Spokane. Sir Charles has been here for several months and has become a well-established figure in the camp.

Not much has been heard of the Eric of late though work on the property has been going on steadily. The claim, which is nearly a full one, lies about 2000 feet north of the Monte Cristo and Evening Star, and occupies the summit and both slopes of the long ridge which runs north from Monte Cristo mountain. The bottom of the shaft itself is becoming well mineralized, so no one need be surprised if the Eric opens up a big chute of shipping ore one of these days.

The Orlie Queen has aroused renewed interest because of its position in relation to the Crown Point. It is clearly on the ore belt running west from the Crown Point and taking in the Tiger, Uncle Sam, Prince of Wales, Triby, R. E. Lee, Maid of Erin, Gopher and Homestake. The Orlie Queen has a shaft down 50 feet and the ledge is 15 feet wide. The ore so far obtained runs fairly well in gold, with some silver and a little copper. The ledge is one of the strongest and best marked in the camp and has been traced 600 feet across the ridge. Another and still larger parallel ledge lies 250 feet to the north. This ledge is 20 feet wide in places and says from the surface show as much as \$4 in gold.

The Cambridge continues to improve. H. S. Wallace went down to the mine on Thursday and took a sample of about 100 lbs. of the ore in the bottom of the shaft. It went \$38 in gold, and although not assayed for copper, would undoubtedly run at least 3 per cent. in that metal.

Our London correspondent tells us of his effort to find something about the War Eagle Company registered there with a capital of £2000. He could not learn anything about it, but we have heard all about it in Rossland. It seems that some people in London knew of the plans of the syndicate which held the option on the War Eagle and with a view to making a little money out of them they registered a company in the name which it was understood they would use.

He found two feet of quartz next to the foot wall and then four feet of gangue heavily mineralized. He expects to find solid ore in the hanging wall. The quartz carries some gold, very good assays having been had from it on the surface.

From Joe Young we learn that the Elise is to be incorporated for \$1,000,000. Mr. Young owns one half of the property, the other half being held by a Seattle syndicate represented by Dr. E. C. Kilburne. The Seattle people paid \$50,000 for their half of the claim.

The Commander ship is now down 130 feet and is in a fine grade of copper ore. A body of calc spar was encountered a few days ago which filled the entire bottom of the shaft, but this has disappeared and the ore has come in again.

The new building to enclose the machinery plant of the Nickel Plate is approaching completion and presents a very neat appearance. Some very pretty ore is now being taken from the Nickel Plate. A shipment made recently yielded 100 lbs. of gold.

H. Sterner has been appointed manager of the Sovereign and is putting that property into good shape. The shaft shows several feet of solid ore of fair grade. A good start has been made on the tunnel and it is expected to strike the ore body in a short time.

The shaft on the Palo Alto is down about 20 feet. Both the hanging and the foot walls are perfect. The entire space between the walls is filled with ledge matter with from 5 to 15 inches of clear ore running through it. This clear ore assays fairly well, some of it running as high as \$20 in gold.

Some very good free milling quartz has been found on the Elm group in the South Belt. This lot of ore claims is the property of a London company. A tunnel has been passed through two strata of quartz, both of which assay as high as \$30 in gold.

The Mabel company has a small force steadily at work drifting on the vein exposed by its 100-foot crosscut tunnel. The drift is now 30 feet long and shows an average of three feet of iron oxide. The face of the drift is over 85 feet from the surface and a change to solid ore is expected any day. The footwall of the vein is smooth and well defined. The entire syndicate began work on the Argentine, near the White Elephant, on Wednesday. There is a three-foot vein of fine looking rose quartz running through this property. It is in the granite. The quartz is said to run fairly well in gold. The vein will be opened by a shaft which will put down at least 40 feet.

The strength of the whole is in the healthfulness of the parts.

Its great advantages are the thoroughness with which it cleanses the system, its simplicity, and the ease with which it is used, but "use no words, tell of its usefulness." No. 1. Nephritis and Bladder with Outlet Tubing, \$3.00 each. For use with any Bulb Syringe, Fountain Syringe or Compressor.

No. 2. Nephritis, Bladder Outlet Tubing, 2 qt. Fountain Bag and 2 extra pipes complete in itself. No. 3. Nephritis, Bladder Outlet Tubing, 2 qt. Water Bottle with attachment for changing into a Fountain Syringe, complete in itself. \$3.00 each. If your druggist has not got these in stock and will not procure them for you, we will mail you at once, postage free, upon receipt of the price.

ALPHA RUBBER CO., P. O. Box 25, Montreal. Manufacturers of Fine Rubber Goods. A little pamphlet entitled "How to select free upon application. Send for it."

ed work in the old St. Elmo Con. tunnel. The face of this tunnel is about 250 feet from the St. Elmo line, but if it is continued will give great depth to the St. Elmo workings. The face of the tunnel is well mineralized and it need not be surprising if a solid body of ore is encountered at any time.

The owners of the Giant, the Coplan Brothers of Moscow, Idaho, has let a contract for a 100-foot tunnel. It will be started above the big east and west vein, and will be driven on the north and south vein. Ore from the surface of this ledge for a width of 16 feet averages \$20 in gold. The tunnel will be driven to a point under the present opening on this vein, where it will have a depth of about 45 feet.

The shaft being sunk from the upper tunnel of the Cliff continues to be in solid clear copper ore, about five feet in width with very good walls on either side. The dump is now full and additional room will be prepared. No arrangements have yet been made for himing, though the ore will probably go to the Hall Mines smelter. The showing in the tunnel below continues to be as good as ever. The men have begun to drift on the ore body running along the hanging wall. There is nothing but hanging wall ore in the footwall.

The owners of the Lander, a claim adjoining the Highland on the east, have been running an open crosscut and have uncovered the Highland ledge. It is 30 or 40 feet wide and presents a very fine appearance. The Lander people are greatly pleased and have taken out a lot of supplies for their run and will commence extensive development.

The Great Western shaft continues in solid ore. A narrow dyke of diorite has been found on the north side but these dykes are found wherever ore is found to this extent.

The stock of the Josie company is very widely scattered. Much of it is held in Eastern Canada. These stockholders hold a good price for their shares and have a right to expect a dividend at an early date. The mine is looking first rate.

The shaft on the Cliff has big bodies of ore on the north side and east and west. Under these circumstances it is strange that none of the managers of the mine are here to look after it.

For some months engineers have been examining the various water powers of British Columbia. Attention was at first directed to Shown Creek, but as the available power was on the American side and the prospect of electricity would be subject to duty, Shown Creek was abandoned. A careful examination was made of the Point of View and the company has selected this river for the location of the power station, the actual site selected being near the mouth of the river and about 12 miles from Rossland in a direct line. Here the plan contemplates the construction of a dam. The total flowage of the river is about 200,000,000 inches and with a 20 foot head 10,000 horsepower can be developed. It is proposed to install 2,000 horse power of electricity to be run with this will be of the well known three phase type, the current being carried at 10,000 volts, with stepdown transformers at the various mines. The total investment will be in the neighborhood of \$250,000. Under the plan proposed, the wires will be run into Rossland via Trail, taking the various mines on route and supplying light to both cities.

A very high assay was had this week from ore brought in from the Iron Creek district, about 100 lbs. of ore of Rossland. Elvyn Twick and W. K. Carter have some claims in the vicinity of X— mountain, near Iron Creek, and they came into town early in the week bringing some ore from one of these claims. An assay showed 5.4-5 ounces of gold and 97 ounces of silver. This was quite surprising to Mr. Terwick who had no idea the ore would run so high, and he immediately packed his little spotted cayuse and struck the trail on the return to camp. Norman Jackson, who had already been out to Iron Creek, started the next day and will make some new locations. He has since been followed by many others. Terwick was naturally very much elated. He says there is no doubt about the existence of a strong mineral belt in the country. When he comes to Rossland again he will bring a considerable quantity of ore from different claims, in order to make more thorough tests. E. F. Griswold has returned from his second trip to Iron Creek. He made a number of additional locations for himself and friends and is more thoroughly convinced than ever of the existence of that district of a rich mineral belt. During his last visit he made closer examination of the country than before and collected a number of samples of iron ore and clear ore. Some of the ore carries a good deal of copper. Mr. Griswold will return in a short time and begin developing some of the properties he has secured.

Prompt relief in such headache, dizziness, nausea, constipation, pain in the side, catarrh, gonorrhea, etc., using Carter's Little Liver Pills. One dose. Small price. Small dose. Small pill.

City Hall, Victoria, B. C.

City Treasurer and Collector's Office,

August 29th, 1896.

CHAS. KENT,

Collector of the Corporation of the City of Victoria, B. C.

LEGAL NOTICES.

NOTICE.

Notice is hereby given that one month after the first publication of this notice in the Canada Gazette, application will be made by the Corporation of the City of Victoria, British Columbia, under the provisions of the "Act respecting certain works constructed in or over navigable waters," Revised Statutes of Canada, Chapter 2, to His Excellency the Governor General in Council, for approval of the plans for two wooden pile bridges, one being partially constructed for ordinary vehicular and pedestrian traffic, and the other for tramway traffic only, both to be constructed across the waters of Victoria Arm, Victoria, in the Province of British Columbia, from Work at Victoria, across the strait to the Indian Reservation and on or near the site of the Point Bluff bridge that collapsed on the 25th May, 1896, the plans of which proposed bridge and a description of the proposed site thereof are deposited with the Minister of Public Works and a stippled copy of such are deposited at the office in Victoria, at the office of the Registrar General of Deeds for the Province of British Columbia.

Dated at Victoria, British Columbia, this 4th day of August, 1896.

WELLINGTON J. DOWLER,

Clerk of the Municipal Council.

NOTICE.

Notice is hereby given that I intend to apply for the next sitting of the Board of Licensing Commissioners of the City of Victoria, for a transfer to Celia A. Stevens of the license held by me for the sale of liquors by retail upon the premises known as the Telegraph Hotel, more or less.

Dated this 15th day of August, 1896.

ROBERT ANDERSON

—Samples of Liberty art fabrics, etc., sent to all parts of the province by Weller Bros.

Dental Notice

Dr. T. J. Jones' Dental Business will be carried on as usual during his illness.

NOTICE.

Application will be made to the Parliament of Canada during its next session for an act to incorporate the British Pacific Railway Company, with power to construct a railway from Victoria, British Columbia, via Winnipeg, Manitoba, to the Hudson Bay, with a branch line to a convenient port on Hudson's Bay, with power to purchase, lease, amalgamate or otherwise acquire, with existing lines or companies on the line of the proposed railway or connecting therewith.

Motual, July 1st, 1896.

Victoria Lumber and Man'g. Co.

(LIMITED.)

Notice is hereby given that at a meeting of the Board of Directors of the said Company, held on the 1st day of September, 1896, a resolution was passed, with power to
